

PRODUCT FACT SHEET

ScanPatra

All-in-One Document Productivity for Android

Overview

ScanPatra is a free Android application that consolidates the most common document productivity tasks into one offline-capable, privacy-respecting tool. Developed by journalist Anzer Ayoob in Jammu & Kashmir, India, the app was built to eliminate the need to use multiple separate websites or applications for scanning, converting, and managing documents.

Application Details

App Name	ScanPatra
Developer	Anzer Ayoob
Platform	Android
Price	Free
Release Date	19 June 2026
Region	Jammu & Kashmir, India (Global availability)
Language	English
Package ID	com.scanpatra.scanpatra
Category	Productivity

Features

- Document Scanner with edge detection and image enhancement
- PDF Tools — merge, split, compress, convert
- OCR Text Recognition (on-device, no upload required)
- Letter Maker with guided templates
- QR Import for device-to-device document transfer
- Offline-first — works without internet connection

- No account required — no sign-up, no login
- Privacy-first — documents never leave the device

Privacy & Data

ScanPatra does not collect personal data, does not require account creation, and does not transmit user documents to external servers. All processing is performed locally on the user's device. The app functions fully offline for its core feature set.
